### Background

The Slovak Academic Association for Lifelong Learning (SAALL) is an apolitical, non-governmental, voluntary organization being established on the Act No. 83/1990 Collection of Law.

### Focus

SAALL's mission and priorities are:

- To associate Slovak universities and colleges, their workplaces and physical entities dealing with the lifelong learning education
- To develop the national and the international visions, strategies, and policies
- To participate in the legislative process influencing activities in the field of the lifelong learning
- To form call for proposals within the relevant Grant scheme
- To support active public participation in the lifelong learning
- To support project cooperation based on the mutual partnership
- To support professional development of people operating in the sphere of education
- To support research and development
- To develop editorial and publishing activities
- To support mutual exchange of information and activities leading to the SAALL mission fulfilment
